BG ECQ – European Center for Quality Ltd.  
GR ATLANTIS Consulting S.A.  
PL EUREKA – European Centre of Vocational Training  
PT Aidlearn – Human Resources Consulting Ltd.

## Project Description

---

The project comprises all activities within the organisation and realisation of a valorisation conference. The conference aims at the dissemination of project results conducted in different actions within the SOCRATES programme GRUNDTVIG. In detail the main activities are defined by four round tables held in partner countries and the final conference in Austria. Target groups are institutions and organisations in the field of adult education, representatives from high schools, company's educational departments as well as general company representatives.

In the initial phase preparatory tasks in form of four round tables are carried out and intend to intensify and evaluate the core topics of the later conference. Hereby the focus will be on skills and competences in regards of intercultural communication, economy, knowledge as well as teaching and learning. The conference will then comprise these major topics. The following project phase consists of all necessary activities for the organisation and accomplishment of the conference including the adjustment of the conference programme, the invitation of potential speakers and participants, the actual holding of the conference and after preparation of the conference materials and results. The follow-up actions consist of the gathering of overall conference results and the preparation of conference proceedings.

Expected results are the making of use and promotion of project results for non-involved institutions, sensitisation of participants concerning intercultural competences as well as the fostering of networking processes between educational institutions and strengthening existing project partnerships.

The conference will be held on the 21<sup>th</sup>-22<sup>th</sup> of June, 2007.
